

LABQUALITY

Integrated EQA

Juha Wahlstedt
EQA Solutions Specialist
EQALM 2014

Laboratory Information Systems

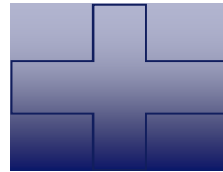

EQA vs. patient samples

- Patient sample requests and results have been sent between the organizations for years
 - Requests for EQA samples are usually not in the LIS automatically
 - EQA results are reported mainly manually from the device to EQA providers service
 - Solution?
- Integrating laboratory information systems to EQA portals electronically

Labquality's Integrated EQA

Mylab's LIS

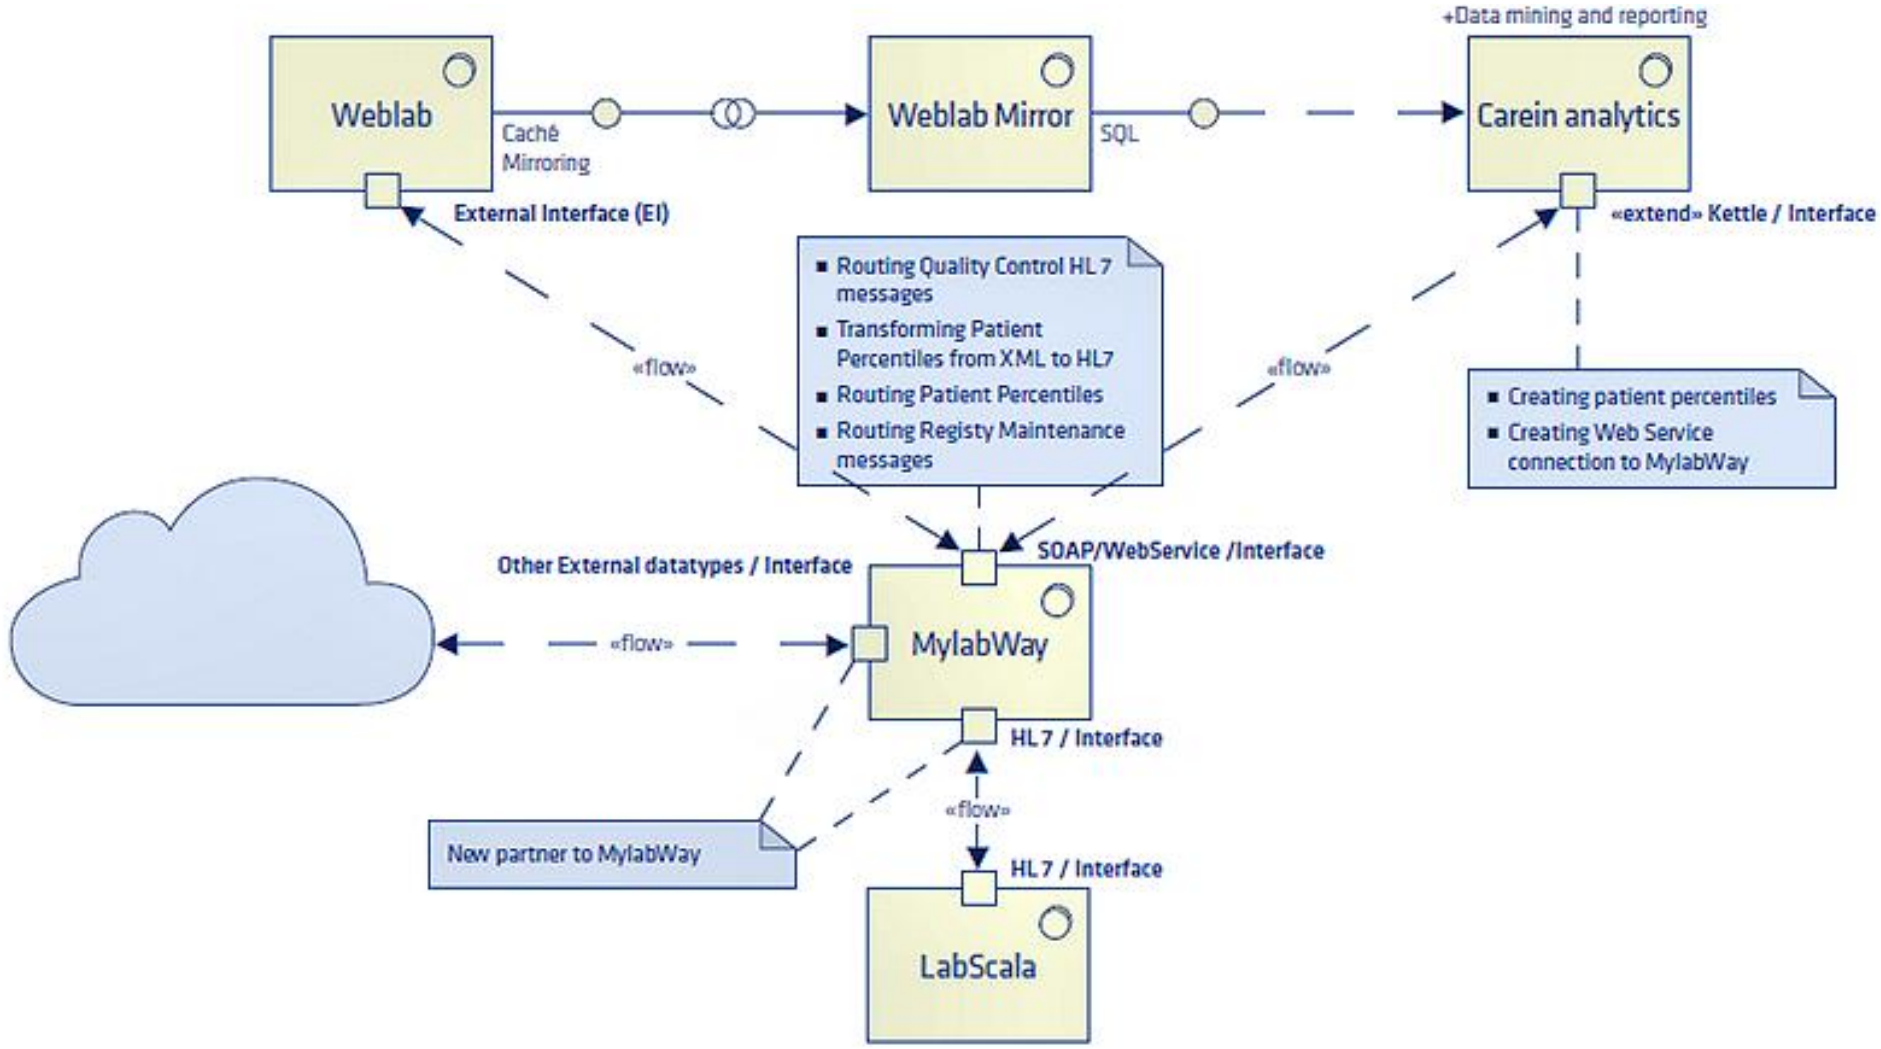

LabScala

Labquality's EQA portal

WebLabScala

Proof of concept

What's in it for the clients?

- Electronic request
- Added value to your EQA
- Reminders from the system
- Tracability, less errors
- Faster TaT in EQA
- Saves time and money

%
What's important is that you have a faith in people, that they're basically good and smart, and if you give them tools, they'll do wonderful things with them.+

~Steve Jobs

Thank you

- This presentation is based on Jonna Pelanti's (Labquality) and Samuli Niiranen's (Mylab) poster to Nordic Congress in Clinical Chemistry September 2014.
- Handouts of the poster are available here and also on Labquality's web site.
